## Summary

Fresh graduate in Information Systems from Telkom University with strong interest in backend development while exploring intuitive frontend design. Gained practical experience through internships and academic projects using Laravel and Odoo. Known for being detail-oriented, collaborative, and eager to contribute to impactful digital solutions.

## EXPERIENCES

### PT. Fujicon Priangan Perdana | Bandung, Indonesia

*Web Developer Intern* (September 2024 - December 2024)

- Developed custom modules in Odoo using Python and XML.
- Contributed to Odoo version migration from v12 to v14 through code adjustments and testing.
- Assisted in feature debugging and layout modifications based on user feedback.

### DASPRO Laboratory | Bandung, Indonesia

*Database System Practicum Assistant* (February 2024 - June 2024)

- Assisted students in configuring XAMPP and MySQL during hands-on sessions.
- Troubleshoot SQL queries and database connection issues.
- Supported class sessions with up to 100+ students per semester.

### PT. TELKOMSIGMA | South Tangerang, Indonesia

*Backend Developer Intern* (July 2020 - November 2020)

- Developed backend features using Odoo for internal document generation system.
- Implemented token refresh logic to support session-based authentication in Odoo backend.
- Collaborated with team using Git and Postman for API and testing.

## EDUCATIONS
