SUMMARY

Web Developer with hands-on experience in backend development for web-based and enterprise systems. Experienced in building and maintaining server-side logic, database-driven applications, and system workflows using Laravel and Python-based frameworks. Comfortable working with evolving requirements, system maintenance, and collaborative development environments.

EXPERIENCES

PT. Fujicon Priangan Perdana | Bandung, Indonesia

Web Developer Intern (September 2024 - December 2024)

- Built and maintained backend business logic for internal web-based systems using a Python-based framework.
- Performed system refactoring and adjustments during major framework version upgrades.
- Supported system maintenance and regression testing to ensure feature stability.

DASPRO Laboratory | Bandung, Indonesia

Database System Practicum Assistant (February 2024 - June 2024)

- Assisted students in configuring local development environments using XAMPP and MySQL.
- Troubleshoot SQL queries and database connection issues during practicum sessions.

PT. TELKOMSIGMA | South Tangerang, Indonesia

Backend Developer Intern (Remote) (July 2020 - November 2020)

- Worked in a remote internship environment with evolving project scope and limited technical guidance.
- Analyzed proposed business problems and translated them into high-level backend system concepts.
- Explored backend architecture and development workflows independently as project preparation.

EDUCATIONS

TELKOM UNIVERSITY | Bandung, Indonesia

Bachelor of Information System (August 2021 – July 2025)

GPA : 3,89

Projects :

- *Medeecare Apps* : Developed backend and frontend features using Laravel and Blade, including authentication, data management, and input validation.
- *Punten Coffee Apps* : Implemented Midtrans payment gateway integration into Laravel-based ordering flow.

SMK TELKOM MALANG | Malang, Indonesia

Majoring in Software Engineering (June 2018 - June 2021)

Final Score : 94,81
